MODERN EXPO

DESIGN PROPOSAL

This is not just a place you arrive at by chance: it's a destination.

Here, shopping becomes an adventure, and every experience leaves you inspired.

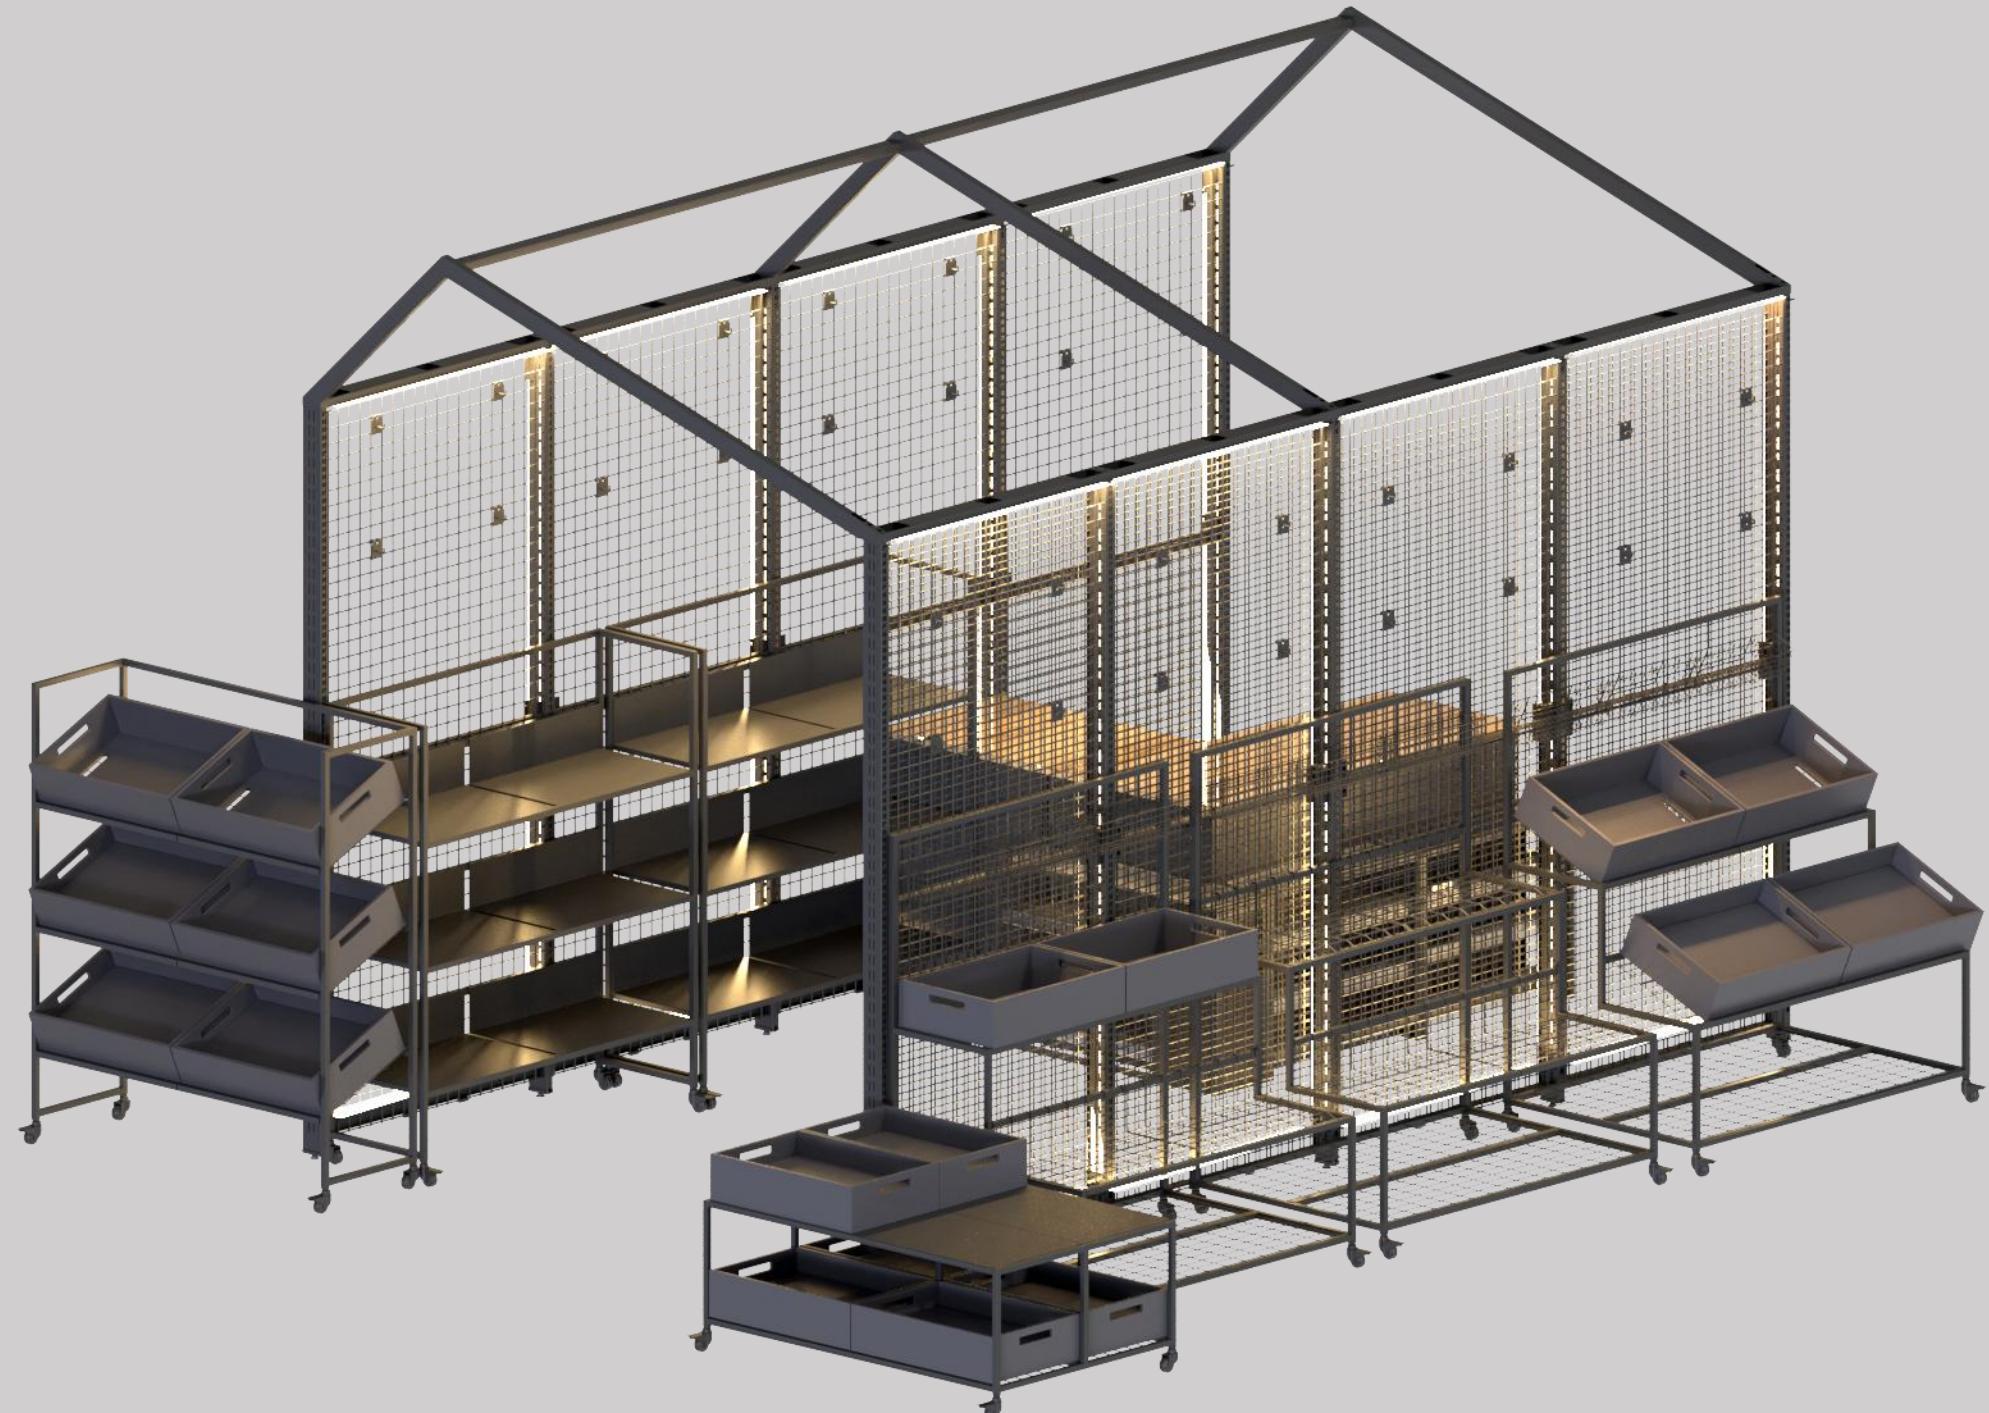

Floristics

Create an attractive and functional florist space with a design that prioritizes visibility and accessibility. Modular shelving, display units of various sizes and a versatile flower table offer an elegant way to showcase products.

A warm and welcoming atmosphere inspires customers, while a preparation counter and tables on casters optimize efficiency.

Artificial Plants Area

Create a striking display for artificial plants with modular and elegant furniture. A black metal structure with wheels highlights hanging plants, while adjustable shelves and tiered towers offer flexibility.

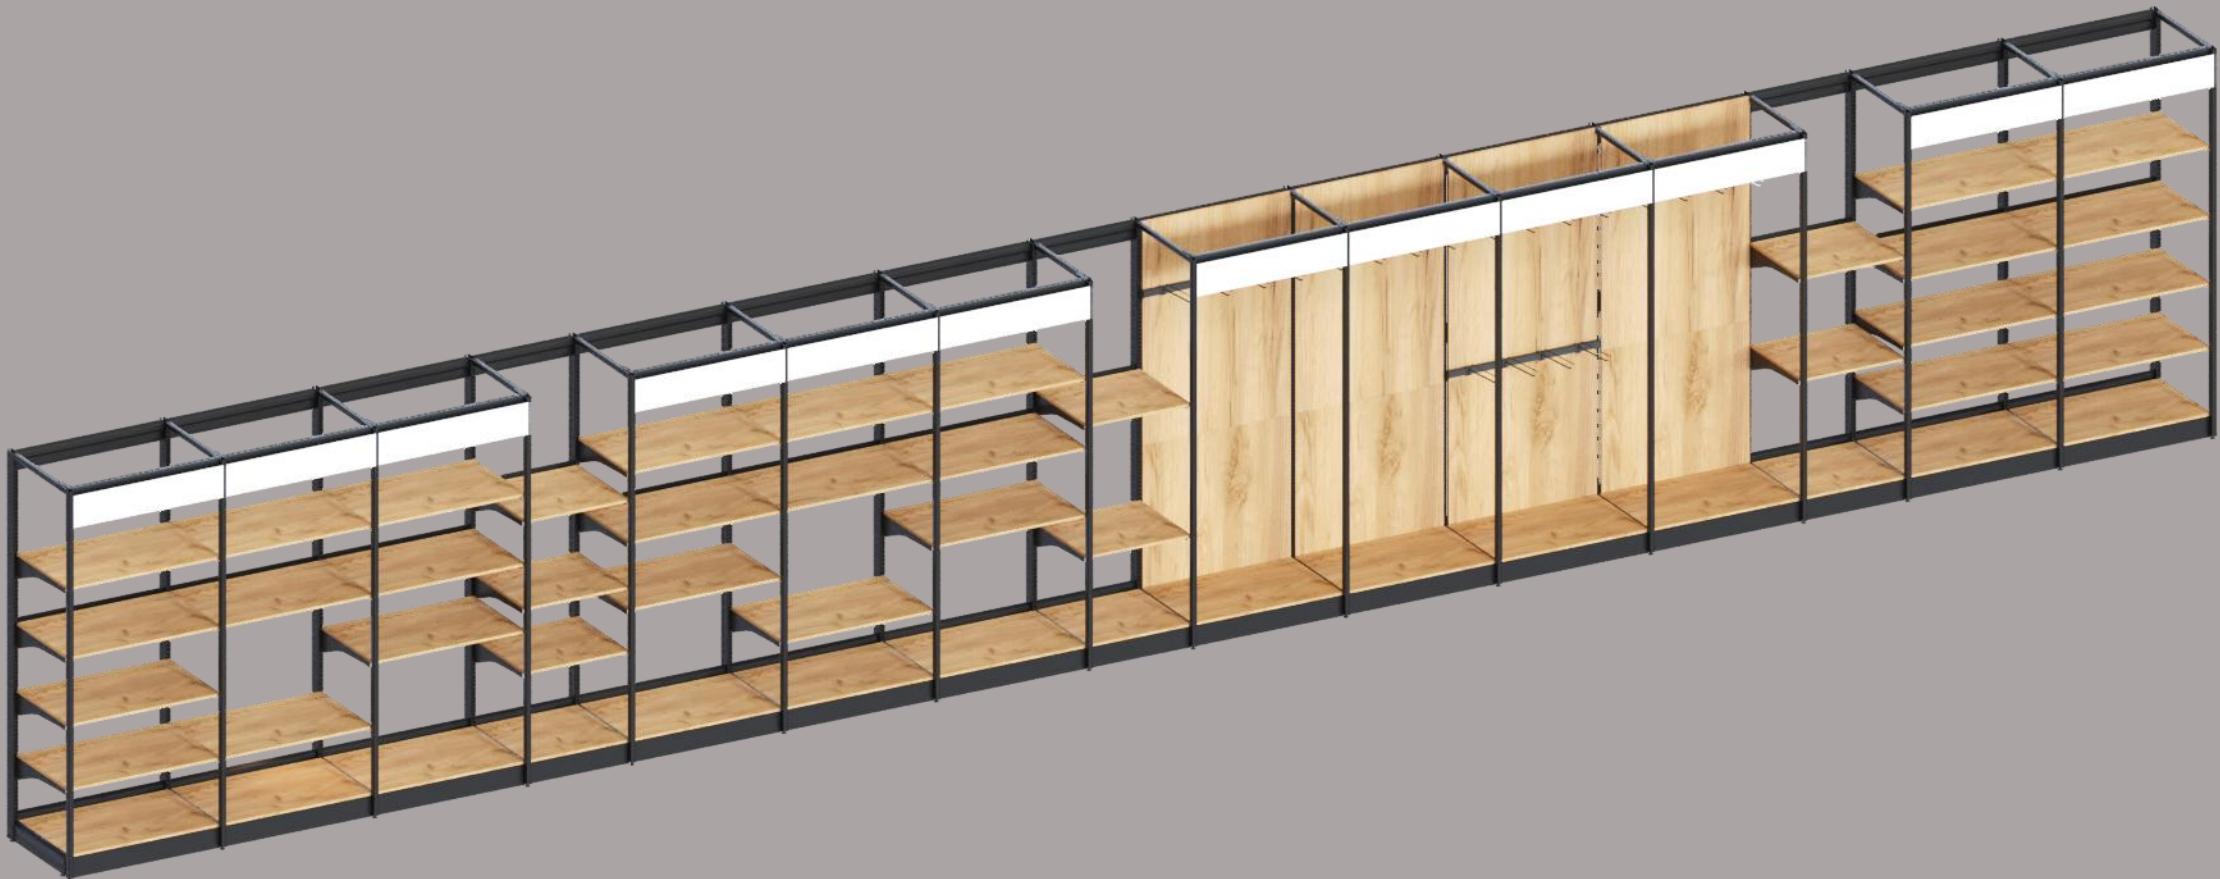

This design ensures total visibility and accessibility from all angles, creating a modular and immersive space that enhances the products on display.

Area of pots

Decoration / Food Area

Designed for easy display and organization. Tables with storage and adjustable shelving. Custom flooring adds a unique touch, while suspended ceiling panels define and highlight areas.

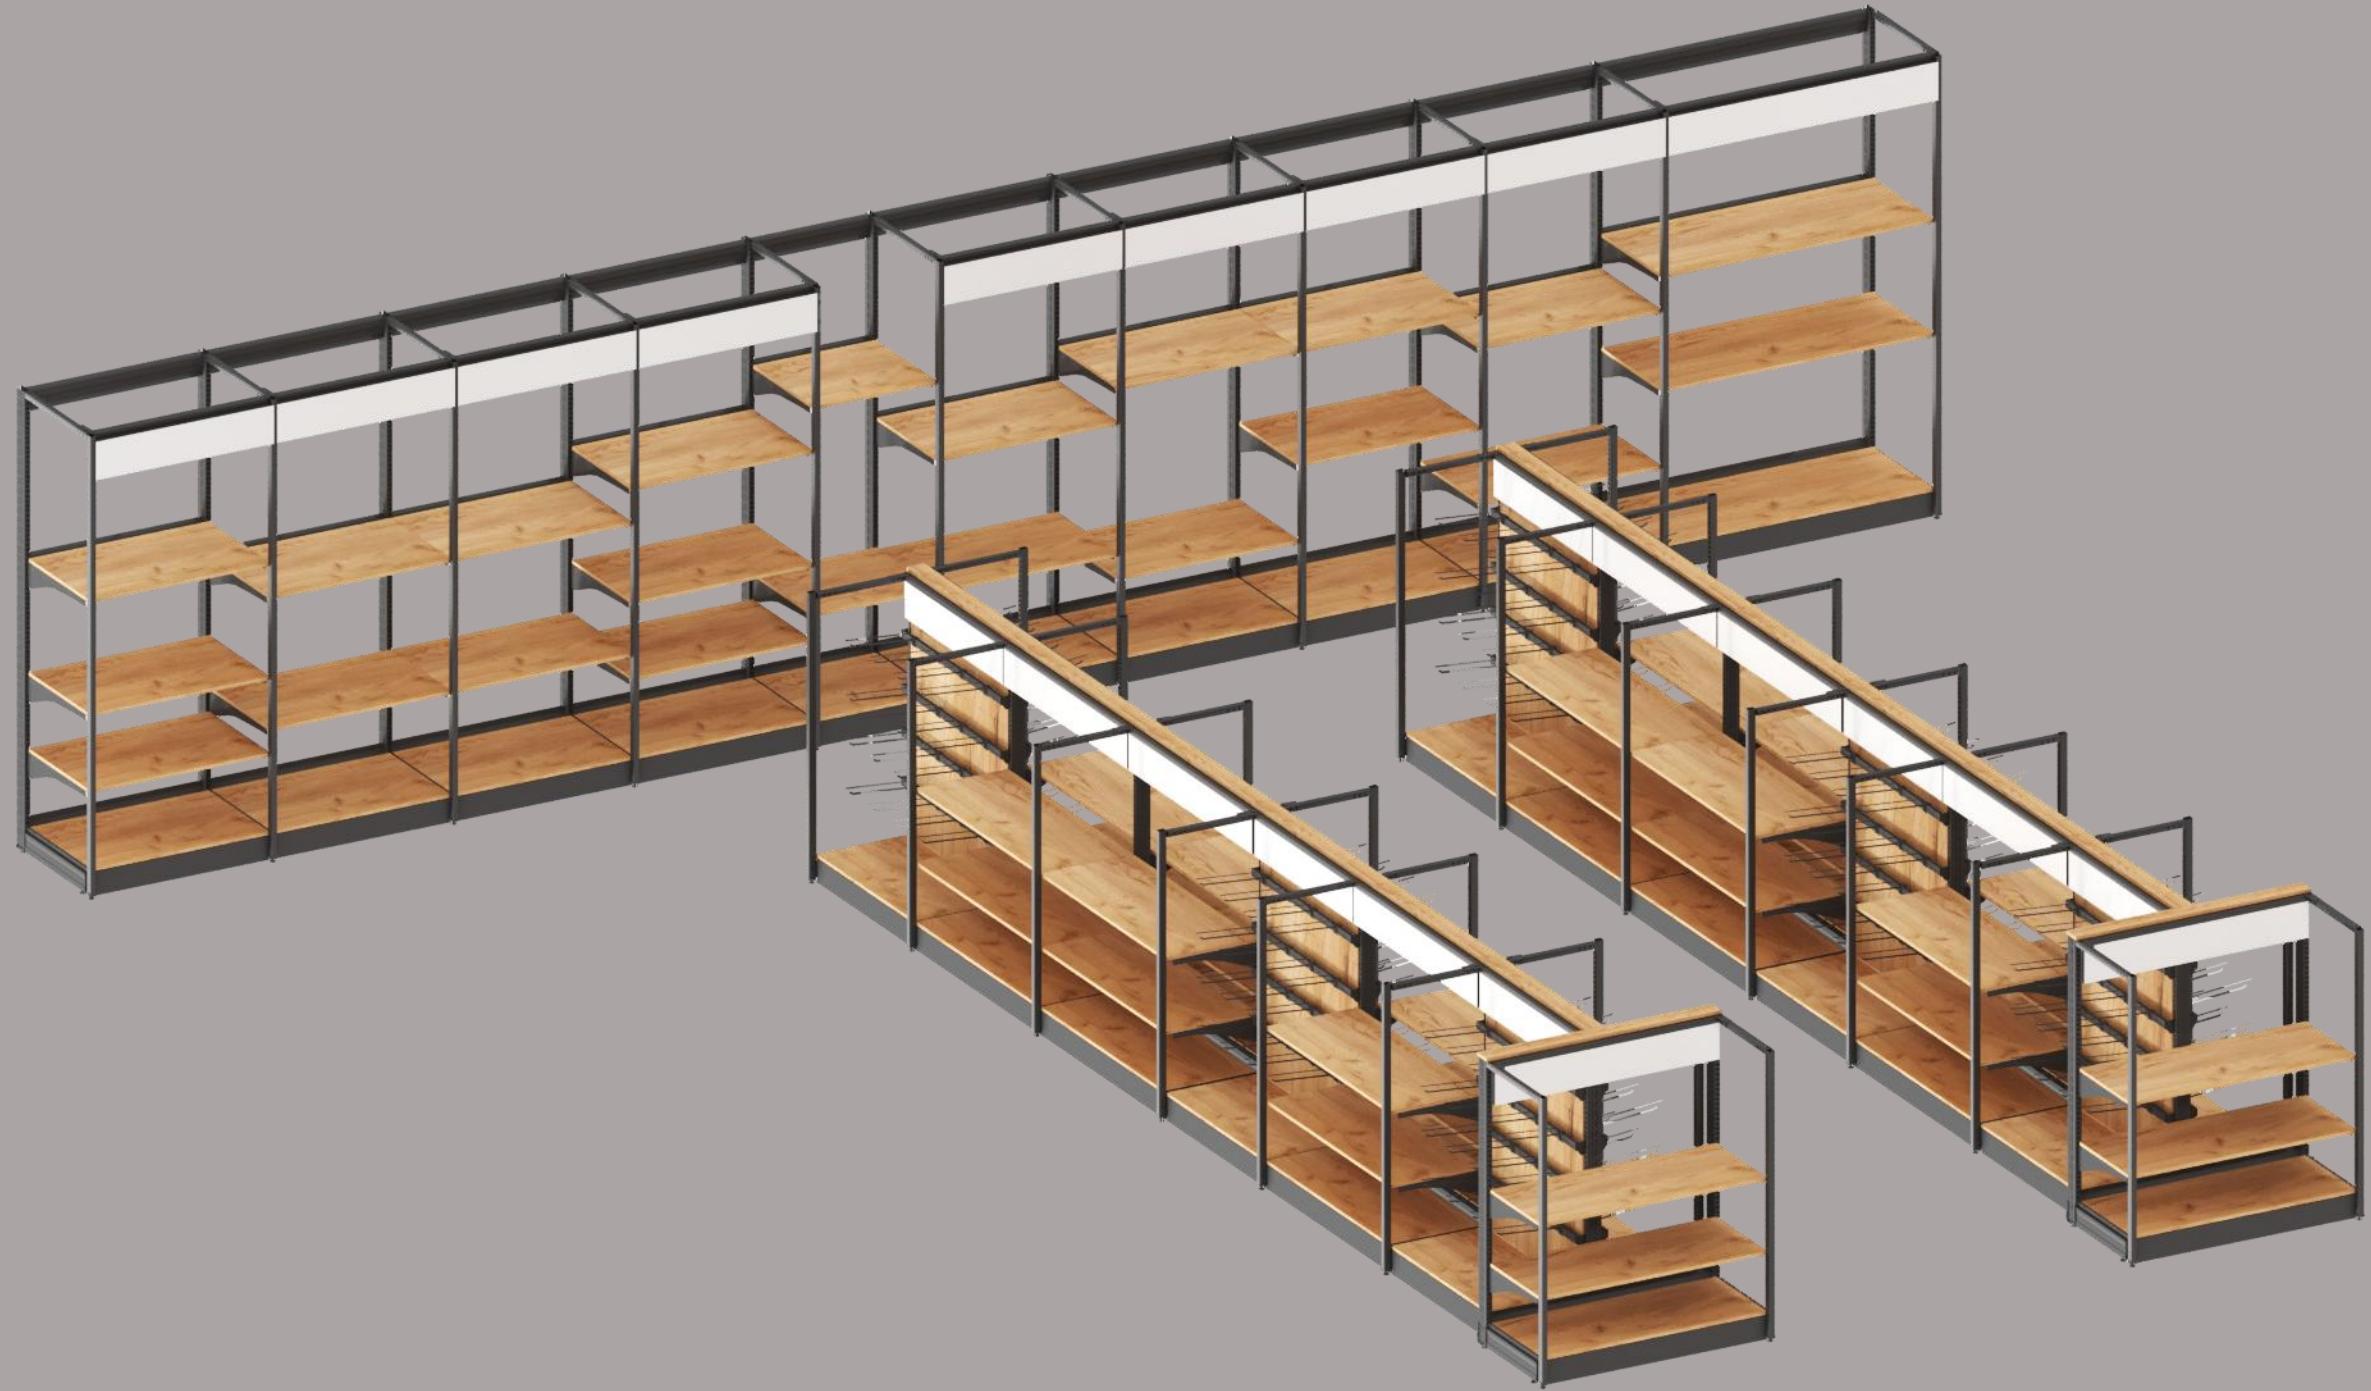

NECK Collection

WHAT'S
HAPPENING?

Pet supplies area

Caring brings benefits. Share unique moments with those you love the most, offering them comfort, health and wellness in a space designed especially for these needs.

Stand Decoration Proposal with Hanging Plants

Adjustable hanging plant displays, combined with a sleek promotional product shelf, transform your store into a welcoming and inviting space. With a modular and dynamic design, the layout guides customers through prominent displays, while the hanging garden element adds a natural touch. Ideal for drawing attention to your products, encouraging creativity and comfort in a unique environment.

A pharmacy space must offer both functionality and convenience. Well-organized shelving and storage solutions ensure that products are easily accessible and clearly visible, enhancing the customer experience.

THANK YOU!
